

What's Developing

Are you interested in starting a daycare in Eureka? Or do you know someone who is interested in that type of business?

There is a very critical need for additional daycare right now. One daycare closed due to retirement and the other daycare has to turn away children because it is at capacity.

Anyone interested in learning the requirements and options in starting a daycare can contact the Eureka Community Development Company at 605-284-2130, email at ecdc@valleytel.net or stop at the office located in the Information Center.
