

What's Developing

A letter that begins, "Congratulations, your organization has been awarded funding" is a welcome sight.

The funding is actually \$500 worth of merchandise from the SD Dept. of Tourism through their Rooster Rush program to promote pheasant hunting in the area. The application was made by the McPherson County Economic Development Group. Eureka and Leola had previously identified pheasant hunting as an avenue of economic development for the county so an application was made this fall for the funding.

Besides the posters and clothing from the Dept of Tourism, the group sponsors a website at www.huntmcpersonsd.com and prints a McPherson County hunting brochure.

A meeting will be held soon by the Leola and Eureka representatives to discuss upcoming plans.
