

What's Developing

Tourism materials from the region and state are updated annually. Those materials have recently been delivered and are available free of charge. They can be found in the brochure holder at the Eureka Information Center. The new materials are South Dakota Vacation Guide, Glacial Lakes and Prairies Visitor's Guide, and South Dakota highway maps.

Other written materials in the brochure holder include brochures of Eureka's businesses, organizations, churches and events. Those with printed materials can place them in that area. There are also brochures and booklets from other area communities. South Dakota Fishing Handbooks, Hunting and Trapping Handbooks, and Hunting Atlases from SD Game, Fish and Parks are available there.

An adjacent business card holder contains business cards of local and area businesses. Those with business cards are encouraged to place a supply in that area.
