

What's Developing

One of the missions of the Eureka Community Development Company is to help find resources for new, existing, and expanding businesses. Whether it is training in specific areas, financing, marketing, business planning, or anything else related to a business, ECDC has contact with many agencies that can be of assistance. Many of these are free or low-cost. Some even travel to Eureka and meet with the businesses locally to provide needed assistance. If you need help with any aspect of your current or future business contact the ECDC office in person, at 284-2130, or ecdc@valleytel.net.
